👤 PROFILE

I have three years of experience as a frontend developer, specializing in creating user-friendly interfaces. I'm up-to-date with the latest tech trends and eager to contribute to a dynamic team. **Looking for roles that will allow me to grow my skills and have a meaningful impact on product development.**

💼 EMPLOYMENT HISTORY

Frontend developer at Karma Shopping
2022 — 2023

Karma is a free shopping assistant that helps you save time and money when shopping online.

- Developed UI and new features for both frontend and browser extension utilizing React, Redux, and atomic architecture principles.
- Contributed to development of a UI component library using React, Typescript, leveraging the power of Storybook for isolated component development and testing.
- Configured *Webpack* build pipelines for extensions.

React, *Redux*, *ES6*, *Typescript*, *Rollup*, *Webpack*, *Storybook*, *Extensions API*

Frontend developer at YIT - Yedioth Information Technology
2021 — 2022

- Designed and developed responsive web applications, employing *React* and *Typescript*.
- Took full ownership of Ctech website, finishing project in 3 months using *React* and *Typescript*.
- Contributed to high-profile projects including Ynet and Vesty.
- Built CI pipelines for frontend applications deployment.
